

LIQUID 'K'

For Versatile Manual Cleaning

PRODUCT DESCRIPTION

LIQUID "K" is a concentrated liquid, general purpose cleaner and foam additive.

BENEFITS

Saves Time and Labor

- Exceptional wetting agent action - help assure quick penetration of protein food soils.
- Easy to use - leaves equipment shiny and spot free. No touch-up labor.
- Produces a high stable foam for removing normal soil loads, especially in hard to reach areas.

Reduces Costs and Inventories

- Works in all water conditons - no additional additives needed.
- Versatile - cleans all types of surfaces, including glass, plastic, metal, and painted.
- Economical use concentration.

Environmentally Responsible

- Non-phosphated, helps minimize sewage effluent surcharges.

LIQUID 'K'

PROPERTIES

Form	clear liquid	pH of 100% solution	7.8
Color	yellow	1.0% solution	7.6
Odor	pleasant	Specific gravity at 68°F	1.029
Foam	excellent	Pounds per gallon	8.6 (3.9 kg)
Wetting ability	excellent		
Formula contains no phosphorus.			

Available in 4/1 gal. (4/3.8 l) case & 55 gal. drum (208.2 l)

USE

LIQUID "K", formula LC-300, is an exceptional detergent for general cleaning in dairy-food processing operations. It is specially compounded to quickly and easily cut grease, grime and atmospheric film. LIQUID "K" rinses freely, leaves no film. Effective-economical-easy to use.

For regular, general maintenance clean-up...walls, windows, glass, painted surfaces...use 1 ounce of LIQUID "K" per 6 gallons (1.3 mLs/L) of warm water. LIQUID "K" is also excellent foam additive for foam cleaning with Ecolab alkaline or acid detergents.

Consult your Ecolab Representative for specific use instructions and recommended dispensing equipment.

For cautionary and first aid information, consult the Material Safety Data Sheet (MSDS) or product label.

AUTHORIZATION

LIQUID "K", Formula LC-300, is authorized by the U.S. Department of Agriculture for use in Federally inspected meat and poultry plants as a general cleaning agent on all surfaces, or for use with steam or mechanical cleaning devices in all departments. Before using LIQUID "K", food products and packaging materials must be removed from the room or carefully protected. After using this product, all equipment, utensils and surfaces must be thoroughly rinsed with potable water.
